Technical Data Sheet

EGT-41-SR

Description:

It's E-glass square braided rope coated with a high grade high-temperature silicone rubber. This high-temperature rope is most often used as a seal where a high degree of air or gas or liquid tightness is required.

Application:

It can be used as a gasket or seal on boiler, coke oven, industrial oven and wood stove/pellet stove doors. It is also used for crucible packing and pollution control equipment, high temperature tying and lacing cords, as a core rope in tadpole tapes and as a pipe wrap.

Specification:

Dia. 6mm up to 100mm

High temp. Resistance: up to 550C degree while silicone is 280C

Remarks

1. The data above are typical values only, and should not be used for specifications purpose.
2. The products should be stored at room temperature, kept away from wet and heat source.
3. The users should take test and do trial-application on the above products before coming into application so as to witness and ensure suitability for their special purpose and technique.
